

MEASURE AND DETERMINE THE SIZE OF YOUR HAND

Find your perfect fit

Measure the circumference of your hand with a tape measure (A). Next measure from the tip of the middle finger to the base of the hand with a tape measure (B). Compare the result with the table.

All our hands are different and your hand may not correspond exactly to the values of the table. The sizes should therefore only be seen as a recommendation.

MEASURING THE HAND AND GLOVE SIZE

Size	6	7	8	9	10	11
A. Circumference of the hand in mm	152	178	203	229	254	279
B. Length of the hand in mm	160	171	182	192	204	215
